

Reepham High School & College's International Journey

Our starting point

1996: "Reepham Island", "Splendid isolation", "Drawbridge Norfolk"

Our first foray into the Global Curriculum

In 1996 we heard of the opportunity to join schools in Leer (De), Dornbirn (A) and Sélestat (F) in a joint curriculum partnership. Funded by the Comenius scheme of the British Council, we have been able to maintain this partnership until the present day. The schools have changed and developed, our ideas widened and our plans have become more ambitious. Since finding our first international friends in these three countries we have gone on to develop partnerships with many other schools in many different countries but we are especially proud of the professional and personal friendships that have endured the test of time.

Other European links

The original Comenius partnership was extended to include schools in Livorno (I) and Groningen (Ne)
Spanish exchange programme with Maria Moliner Segovia,
French exchange programme with Saint André, Niort
Environmental project and student exchange with Opava (CZ) and Wipperfuerth (DE)
Extended visit by teachers from Germany and Slavakia
Extended visit by Comenius Assistants from Sardinia and from Greece
Extended visit by student from Belarus
Involvement with the Action for Belarus Children's Charity

Links with Asia
